POLITICAL ANNOUNCEMENTS.

SHERIFF—I hereby announce myself
a candidate for the office of sheriff of
Otero county, subject to the approval of
the county convention.
W. R. BAKER, Alamogordo.

SHERIFF—I hereby announce myself
a candidate for the office of sheriff of
Otero county, subject to the approval of
the Republican county convention.
GEORGE RICHARDSON, Tularosa.

COUNTY CLERK—I hereby announce
myself a candidate for the office of
county clerk of Otero county, subject to
the approval of the county convention.
JASPER SCOTT, Weed.

THE Sultan of Turkey is now a receptive
candidate for Democratic sympathy.

THE party that regrets the settlement
of a labor strike is short on excuses for
existence.

THE political organization that thrives
upon disorder and discontent is not the
proper governing power for a healthy
nation.

MARK TWAIN's presidential candidacy
had the humorous right of way until it
encountered the Sioux Falls and Cincin-
nati proceedings.

THE democrats are to have their great
fortification this year on the Fourth of
July in place of putting it off until the
Ides of November.

DEMOCRATIC sympathy for the Boers
is largely made up of a desire to put the
administration in an embarrassing po-
sition with other powers.

LE Aguinaldo were wise he would send
half a dozen delegates to the Kansas
City convention, not to vote, but to take
up a sympathy collection.

THE Philadelphia convention can
well afford to endorse the St. Louis plat-
form of 1896. It can be offered an ex-
hibit of what the Republican party does
in the platform promise fulfillment line.

Of the thirty-five American ships that
entered American ports with cargoes
from Europe last year twenty-eight
were of the American line. The twenty-
eight represented the repeated voyages
of but four ships. Not to exceed a dozen
different American ships entered
American ports with cargoes from Eu-
rope during last year, while thousands
of foreign vessels entered.

Now for the fall campaign.
HELP Tularosa make a success of the
Knights of Labor excursion.
The increased dividends of the South-
ern railways naturally causes an in-
creased uneasiness on the part of south-
ern politicians.

Pawn failures in all sections of the
country last April than in April, 1899.
That's pretty good proof of prosperity in
a presidential year.

Missouri has twelve Democrats in the
house of representatives. Eleven voted
against the Nicaragua canal, and the
twelfth stayed away.

A DECREASE of 284,000,000 pounds in
the quantity of wool imported in a year
shows the value of protection to wool to
the American farmer.

IS THE campaign of 1896 the Demo-
cratic ticket had the cooperation of the
empty stomach. Thanks to Republican
legislation, it will cut no figure this
year.

A DEMOCRATIC president in the act
of turning the Philippines over to the
adventurer, Aguinaldo, would be a
pleasing spectacle for the American
people to contemplate.

THE NEWS congratulates Alamogordo
on its new board of school directors. It
is fortunate that three such good men
were elected and it is a pity that three
such good men were defeated.

HON. JOHN G. CARLISLE no longer re-
gards himself as a resident of Kentucky.
Mr. Carlisle has not had a high opinion
of his old political associates since Bryan-
ism prompted him to throw state
eggs at him.

TENNESSEE produced nearly a million
tons more coal last year than in 1893.
That ought to be an industrial oppor-
tunity to the South, especially as prac-
tically the whole of it was used at the
factories of the state.

THE Democratic managers are pro-
ceeding on the theory that the introduc-
tion of foreign questions into the cam-
paign may possibly induce the voters to
forget the upset Democratic predictions
and the realization of the Republican
platform pledges.

THE export trade of the south for the
past twelve months amounted to over
\$400,000,000, more than one-third of that
of the entire country. These figures
which speak more eloquently than the
narrow southern politicians who con-
tribute so liberally to the Congressional
Record.

THE only piece of national legislation
for which the democratic party has been
responsible, since the election of Abra-
ham Lincoln, is the Wilson-Gorman tariff
bill, a measure despised by its authors,
hated by its sponsors, and which wrought
ruin to thousands of those who tried to
be its friends.

THE colored Methodists, in session in
Washington passed a resolution to the
effect that "the success of England in
the present struggle will open up a
brighter future for the millions of na-
tives in South Africa." The Democrats
are naturally opposed to a "brighter
future" for the colored race.

SAVINGS banks deposits in the United
States in 1894 and in 1899, compare as
follows:
Year Depositors Deposits
1899 200,000 \$2,178,800,000
1894 800,000 1,771,200,000

OUR or forty-nine clearances of
American vessels in our trade with Eu-
rope last year, thirty-five were those of
the four ships of the American line.
Less than a score of different American
vessels sailed from American for Eu-
ropean ports during last year, and it is
not surprising that they carried but 1.30
per cent of our total exports to Europe.

We are not so very poorly off after all,
judging by the following comparison of
last year's per capita circulation of
money:
In Per capita.
England \$17.05
Germany 19.84
United States 25.75

And now the per capita in the United
States is over \$36, and still increasing.

If it were not for the good times, if it
were not for the Chicago platform, if it
were not for their past record, if it
were not that McKinley has been such a
promise-keeper, if it were not that
the American people know a good thing
when they have it, and if it were not
for a few more if's, it would be safe to
bet money on Democratic success this
fall.

Records of the postoffice department
show that the amount of mail matter of
all classes in the United States, in 1899,
weighed 1,565,666,508 pounds. This was
enough to fill 39,142 cars with
freight. This record was the largest in
the history of the country, and was due
to the remarkable prosperity and un-
precedented business activity now exist-
ing. In dull Democratic times the
business of the postoffice always de-
clines.

Out of nearly thirteen hundred mil-
lions of dollars' worth of merchandise
carried between the United States and
Europe during the fiscal year ending
June 30, 1899, less than three million
dollars' worth were carried in Ameri-
can ships other than those of the Ameri-
can line. The latter named line car-
ried nearly forty million dollars' worth.
Foreign ships carried twelve hundred
and fifty million dollars' worth. And
yet the foreign lines are concentrating
all of their opposition to the passage of
the shipping bill upon the only Ameri-
can line in the transatlantic trade.

FOREIGN vessels in the trade between
the United States and Europe last year
carried 97.85 per cent of our total com-
merce with Europe, and our trade with
Europe amounts to more than two-thirds
of our entire foreign commerce.

HAVING nothing else to kick about
the Democrats are complaining again
about a surplus in the treasury. It
takes a Democratic administration to do
away with one, and at the same time,
to do away with the surplus savings of
the wage earners.

THE trusts are not having things
their own way by any means. Officers
and directors of the Ice trust of New
York, have been summoned to show
why they should not be proceeded
against criminally on the charge of con-
spiracy. They are accused of restrain-
ing and preventing competition. Its
parentage has been traced directly to
Tammany Hall, which is robbing the
poor of New York and depriving the
people there of a summer necessity.

THE Omaha World-Herald was Mr.
Bryan's personal organ during 1896, and
during that campaign it made the prop-
hecy daily that in event of McKinley's
election the depression and distress
among the working classes would be
widespread. The best proof of the fal-
sity of this prophecy is found on the
want pages of the World-Herald. The
last issue at hand contains the advertise-
ments of two females and seven males
who want situations, while on the same
page the "help wanted" advertisements
ask for 107 females and 115 males. This
is in addition to "agents wanted," and
does not include the advertisement for
1,000 men for railroad work. The ca-
lamity prophecy was a failure in Mr.
Bryan's own state, as it was elsewhere.

KANSAS has made another record.
Not content with plastering the walls of
her state buildings with cancelled mort-
gages; not content with doubling her
bank deposits since 1896; Kansas now
has but one inmate in the state poor
farm. Dining-halls and bedrooms that
a few years ago were crowded with the
idle, with the hungry, and with the
poorly clad, now echo and reecho the
solitary tramp of their one sole inmate,
who is without kith or kin, and who is
too old and feeble to work. But one
sad relic remains in the Kansas poor
house, to remind the taxpayers of the
days when its free soup, free food and
free clothes were donated to those who
were compelled to idleness under a
Democratic administration, and under
its policy of destruction to all American
industries, both of farm and factory.

Talking machines—instruments that
will record and reproduce speech or any
sound—have been before the public in
one form or another for twenty years.
The most advanced type of the talking
machine is the Graphophone. In the
popular mind there is considerable mis-
apprehension and confusion regarding
the correct designation of these instru-
ments. The words "Graphophone" and
"Phonograph" being frequently mis-
used as having the same meaning. The
name "Phonograph" was given to the
first crude model which demonstrated
that sound could be recorded and re-
produced mechanically; but this early
model was unsuited to practical every-
day use. The "Graphophone" was the
first practical talking machine, and the
U. S. patent office has put all similar
inventions into one class, designating
them "Graphophones."

For entertainment, or for instruction,
for practical use, or for any purpose
for which a talking machine may be desired,
a Graphophone is unequalled. The
Graphophone process is the simplest,
the best, and the only successful one for
recording and reproducing speech or
sound. Great improvements recently
made, embodied in machines that re-
produce music and other sounds with
the full volume and vibrant power of
the original, at the same time preserv-
ing all the original melody and tone
quality, are due to the discovery and
application in the laboratory and fac-
tory of the American Graphophone
company, (better known to the public
through its selling department, The
Columbia Phonograph company), of new
principles which have revolutionized
the art. The resulting type of Grapho-
phone known as the "Grand," gives a
sound volume many times greater than
has ever before been attained.

Full information regarding entertain-
ment Graphophones of all styles, and
machines that serve as substitutes for
stenographers for dictating and trans-
cribing correspondence, is contained in
the Columbia Phonograph company's
catalogue. See the advertisement of this
company in our advertising col-
umns.

A Chance at Last.
Why did Miss Antiquette refuse to have
a doctor during her last illness?
She heard that marriages were made
in heaven.

You may as well expect to run a
steam engine without water as to find an
active energetic man without a liver, and
you may know that the liver is the
crack left to show where he disappeared;
but this fellow, mind you, disappeared
as completely as if he had married an
author.

The latest idea—silk ribbon belts with
pulley rings and buckles, finished in
rose-gold, French gray, or satin silver.
See them. RUMBERG'S P. O. Block.

He was embarrassed.
Small Harry had been spending the
afternoon with a little boy in the neigh-
borhood. "Did you have a nice time?"
asked his mother on his return.
"Not very," replied Harry. "His
mother kept hanging around all the
time."
